SAUDI AEROSPACE COMPANY

President & CEO Message

As President & CEO Message of Saudi Aerospace Company (SAC), I would like to thank you for taking the time to view our profile. I trust this will provide you with a valuable insight into our Company's vision, mission and business practices, all of which form the foundation of our success within the Kingdom of Saudi Arabia and in international markets.

From our foundation as a specialized division within Mohawarean International Group (MIG) since 2000, SAC has grown to become an independent holding company. Our successful and rapid business development has allowed us to focus on and excel within the expanding defense, aviation, security, logistics and communication markets in Saudi Arabia. With Headquarters in Riyadh, Kingdom of Saudi Arabia, Saudi Aerospace Company has now become the premier In-Kingdom partner for leading international aviation and defense companies and provides professional services for domestic and international clients, in both the civilian and military sectors. At SAC, we are exceptionally diversified with a continuously expanding business portfolio. We move into new sectors through serving and strengthening our client and customer requirements by providing value added solutions. Each and every task is approached with professionalism and enthusiasm by our highly experienced and dedicated management and staff, meeting the highest standards of business ethics and practices. SAC brings a fresh and innovative approach to today's demanding marketplace providing specialized professional solutions that continually meet and exceed our clients and customers expectations.

Kindest Regards
Mohamad Alharthy
President & CEO

SAUDI AEROSPACE COMPANY

Vision

To be the leader in Defense, Aviation, Security and Communications products and related services in the region aligned with the 2030 vision. We will earn our client's trust through continuous improvement driven by integrity, teamwork and innovations in the Kingdom of Saudi Arabia and beyond.

Mission

To continuously strive for excellence through dedication to deliver the highest quality solutions to meet our client's needs. We are committed to continuously adhering to the best international business practices to improve our competitive advantage and financial performance. As we expand our business horizons, we are committed to the growth and well-being of our personnel, shareholders and communities.

Business Practices

Our aim is to develop solutions that meet our clients' needs and address the challenges faced in the global economic climate. We operate with the responsibility and authority to effectively achieve our business goals and objectives, operating competently and conform to all regulatory requirements. We utilize risk assessment methodologies to determine how to proceed in understanding new projects, implementing business practice improvements or pursuing new opportunities. We execute monitoring mechanisms to evaluate the on-going effectiveness of business processes and modifying them to effectively respond to internal or external changes. We ensure that business activities are undertaken in such a way that optimizes the strategic objectives of our clients and partners.

Mas Aviation Services

Mas Aviation Services (MAS) is a wholly owned subsidiary of Saudi Aerospace Company (SAC) and acts as its main operational arm. MAS is TRACE certified as well as being certified by GAMI. We provide a wide range of services to our OEM partners as well as private and government organizations within the Kingdom of Saudi Arabia and throughout the region.

Technical & Support Services

The concept of outsourcing operations and maintenance is becoming ever more feasible to civil and government clients and MAS' high quality of work and standard operating procedures allow us to act as a world-class service provider in this field. Our key strength in this area is the ability to effectively manage the operations and maintenance of existing facilities for our clients.

We have a vast team of experts with a wide range of experience and our revolving group of specialists provides valuable input for specific service requirements for our customers.

- Consultancy Services
- Development Services
- Operations and Maintenance
- Manpower Services
- Technical Services
- Training Services
